

Vascular Biology, Materials & Engineering
Royal Free Hospital, London, UK

10th – 11th May 2019

The European Society for Vascular Surgery

Welcome to the 7th ESVS Spring Meeting 2019!

We look forward to welcoming you to the 7th ESVS Spring Meeting which will be held in London on 10th and 11th May 2019.

Over the past 6 years, meetings in Frankfurt, London and Leiden have brought together clinicians and scientists, leading experts and early career researchers, and academia and industry, to discuss basic and translational cardiovascular research in an inspiring and friendly setting.

As previously, the meeting will take place over 2 days with single-track scientific sessions, interspersed with interactive poster sessions. Keynote lectures will be given by international experts and there will be prizes for best oral and poster presentations. Based on growing interest in the area, healthcare engineering will be a prominent theme this year and the local pre-meeting workshop will be held in collaboration with the UCL Wellcome/ EPSRC centre for interventional and surgical sciences (WEISS). It is hoped that this will initiate and nurture meaningful cross-disciplinary discussions and collaborations. The Friday evening networking dinner will again take place in a relaxed and fun venue, with opportunities for visitors to explore London.

We sincerely hope you will submit your work for presentation at the meeting and join us in London.

Your Organizing Team

General Information

VENUE

Royal Free Hospital
Rowland Hill Street
London NW3 2PF

ESVS SPRING MEETING LONDON 2019 | May 10th– 11th

TOPICS

- Molecular & cellular biology of vascular diseases
- Genomics & epigenomics
- AAA & congenital aortic disease
- Peripheral artery disease
- Venous disease
- Vascular anomalies
- Biomechanics & cardiovascular devices
- Advanced vascular imaging
- Regeneration & cell based therapies
- Biomaterials in cardiovascular disease
- Modelling of cardiovascular disease
- Proof of concept & first in man studies

Abstract submission open at:

<https://www.surveymonkey.de/r/springmeeting19>

Abstract submission deadline **15 February 2019**

Registration fee: 150,- €, Students 20,- €
